

## A GUIDE TO ENVIRONMENTAL EDUCATION PROGRAMS IN CALIFORNIA STATE PARKS

### A DESCRIPTION OF ENVIRONMENTAL EDUCATIONAL PROGRAMS

**Natural History Field Trips** - Programs, tours, or demonstrations relating to natural history themes are presented to school groups that arrange their park visit in advance

**Cultural History Field Trips** - Students learn first-hand about California's rich cultural heritage by visiting state historic parks. Tours, programs, and demonstrations are provided to school groups by park staff.

**Environmental Studies Programs** - These offer school children a park experience that explores the interaction between people and their environment. Students learn about earlier cultures and lifestyles, and use this knowledge to recreate elements of the culture or era being studied.

**Environmental Living Programs** - These are similar to environmental studies programs but include an overnight stay at the park. Both programs incorporate demonstrations, hands on activities, and follow-up student assignments.

**Junior Rangers Programs** - "Junior Rangers" is a statewide educational program in which children aged 7 to 12 may participate. The program emphasizes stewardship of park resource issues to global concerns.

**Litter-Getter Programs** - "Litter-Getters" is a program that individually engages children in trash collecting activities while it explains the environmental value of acting responsibly in parks.

**Junior Lifeguard Programs** - These teach young park visitors aged 8 to 15 about water safety and aquatic natural history.

**PORTS** - PORTS uses the power of videoconferencing and California's K-12 High Speed Network (HSN) to deliver live, interactive presentations to classrooms from parks throughout the state. PORTS also provides fully developed units of study that furnish support, structure, preparation, and follow-up for these live presentations. Learn more at [www.ports.parks.ca.gov](http://www.ports.parks.ca.gov)
